#### About the Fund

The Pendal Active Conservative Fund (**Fund**) is an actively managed diversified portfolio that invests in Australian and international shares, Australian and international listed property securities, Australian and international fixed interest, cash and alternative investments. The Fund has a significant weighting towards defensive assets.

#### Investment Return Objective

The Fund aims to provide a return (before fees, costs and taxes) that exceeds the Fund's benchmark over the medium term. The suggested investment timeframe is three years or more.

#### Benchmark

The benchmark for the Fund is created from a range of published indices. The benchmark is based on the asset allocation neutral position and the index returns for each asset class. Details of the particular market indices used for the Fund's benchmark can be found at [www.pendalgroup.com/products/pendal-active-conservative-fund](http://www.pendalgroup.com/products/pendal-active-conservative-fund).

#### Investment Process

At Pendal, we actively manage our portfolios to meet their investment objectives by diversifying investments across both asset classes *and* strategies. We employ three main approaches to do this:

1. **Strategic asset allocation** – weighted asset class exposures designed to meet the investment objectives over the long term investment horizon
2. **Active management** – exploitation of market inefficiencies within asset classes
3. **Active asset allocation** – exploitation of market directionality across asset classes

The underlying investments in the Fund are primarily managed by specialist teams within Perpetual Group, including Pendal for alternatives, fixed interest and Australian equities, and a range of specialist managers within the Group for international equities. In respect of global listed property, we have outsourced to a specialist global property manager, AEW. The Perpetual's Multi-Asset Strategies Team also manages an active asset allocation process designed to increase portfolio returns within a defined risk budget.
