About the Fund

The Pendal Sustainable Conservative Fund (**Fund**) is an actively-managed diversified portfolio that invests in Australian and international shares, Australian and international property securities, Australian and international fixed interest, cash and Alternative investments. Investments are selected based on a range of sustainable, ethical and financial criteria.

Investment Return Objective

The Fund aims to provide a real return over inflation over the medium term to meet the objectives of conservative investors including tax exempt entities whilst screening for investments which meet the Fund's sustainable guidelines. The suggested investment timeframe is three years or more.

Description of Fund

This Fund is designed for investors who want the potential for long term capital growth and income, and diversification across a broad range of asset classes. The Fund invests in Australian and International shares, Australian and International property securities, Australian and International fixed interest, Alternative investments and cash.

The Fund may gain exposure to its asset classes by investing in shares, bonds, cash, or derivatives. The Fund may also invest in managed funds, exchange traded funds (**ETFs**), listed investment companies (**LICs**) and listed investment trusts (**LITs**) which invest primarily in such asset classes.

The Fund has a higher weighting towards defensive assets than growth assets.

The Fund has assets that are denominated in foreign currencies. This means that changes to the Australian dollar relative to foreign currencies may affect the value of the assets of the Fund. The International fixed interest and International property securities asset classes are fully hedged to the Australian dollar to the extent considered reasonably practicable. Generally, the Fund's International shares and Alternative investments exposures are partially hedged, though the extent of this may vary over time.

The Fund may use derivatives to achieve its investment objective and to gain exposure to the Fund's assets and markets. Derivatives may also be used to reduce risk and can act as a hedge against adverse movements in a particular market and/or in the underlying assets.

The Fund applies a sustainable approach to investments and applies exclusionary screens.

The Fund has a sustainability objective which aims to support the transition to a more sustainable economy (the **Sustainability Objective**).

We define a sustainable economy as an economic system which balances environmental, social, and economic factors.

The Fund aims to support the transition to a more sustainable economy, by aligning a portion of its capital³ (within the Australian and International shares, Australian and International fixed interest and part of the Alternative investments asset classes of the Fund) in aggregate with investments that advance this transition. We aim to do this by allocating capital to investments that in our view:

- support positive environmental and/or social change via their investment processes, use of capital and/or approach to active ownership; and
- avoid exposure to companies and issuers with business activities that negatively impact the environment and/or society.⁴

Performance figures are calculated in accordance with the Financial Services Council (FSC) standards. Where performance returns are quoted "Post fees" then this assumes reinvestment of distributions and is calculated using exit prices which take into account management costs but not tax you may pay as an investor. Where performance returns are quoted "Pre fees and tax", they exclude the effects of management costs and any taxes. Past performance is not a reliable indicator of future performance.

If market movements, cash flows or changes in the nature of an investment (e.g. a change in credit rating) cause the Fund to exceed any of the investment ranges or limits specified, this will be rectified by PFSL as soon as reasonably practicable after becoming aware of it. If PFSL does so, it will have no other obligations in relation to these circumstances. The procedures, investment ranges, benchmarks and limits specified are accurate as at the date of this factsheet and PFSL reserves the right to vary these from time to time.
